

Designer's Guide

Create a custom Pringles® can in a few easy steps. Display your can design online or print and attach to a Pringles can. Custom cans make great gifts for friends and family.

Step 1

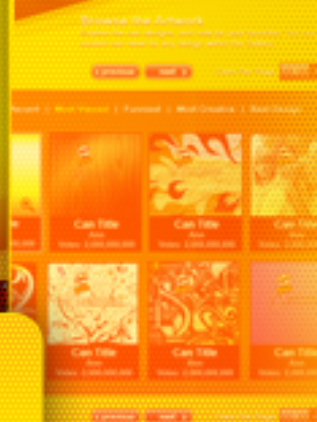

Create a Design

create
design a can
and share with
your friends
background
images
text

Design a background from scratch or choose from ready-made templates. Customize with color, gradients, and personal photos. Add images from our library or upload your own. Include a personal message with custom text.

Step 2

Save to the Gallery

Show off your creativity. Save your can design to the Gallery, and Pringles will donate 50¢* to support Team USA for approved designs. See how many votes you can earn in our 3 categories: Funniest, Most Creative, and Best Design.

Step 3

Share with Friends

Send your can design to friends and family, or post it to your blog. Ask your friends to visit the Gallery to vote for your can as Funniest, Most Creative, or Best Design.

Step 4

Print and Attach

Display your design on a Pringles can. Print your can design on an 11 X 17 piece of paper. Cut paper along white border and wrap lengthwise around can. Line paper with bottom of can and tape or glue where the ends meet.

If you experience problems printing, change your page setup to Landscape and select "Fit to Page."

*For all approved designs, up to \$40,000
